3D Printing Financials: XTPL Adds New Semiconductor and Defense Customers in Q1 2026

Bambu Lab continues its relentless march for 3D printing domination with the launch of the **A2L**. The 330 x 320 x 325 mm printer will have a nozzle temperature of 300°C and a bed temperature of 80°C. Print speed will be up to 500 mm/sec, and it's designed for PLA, PETG, and similar materials. Users can connect up to four Bambu Automatic Material System (AMS) units and one AMS Lite unit, allowing multi-color and multi-material printing. The printer also comes with plotting and cutting modes.

It has Bambu's PMSM (Permanent Magnet Synchronous Motor) servo extruder, along with vibration compensation, as well as two granular

Newsletter Sponsorship		Your logo presented as sponsor atop daily newsletter

The screenshot shows a newsletter header with the 3DPRINT.COM logo and the text 'ADDITIVE MANUFACTURING BUSINESS'. To the right, it says 'Thanks to our newsletter sponsor: LINCOLN ELECTRIC'. Below this is a promotional banner for the '10th ANNUAL AMS X ADDITIVE MANUFACTURING STRATEGIES' conference, held from February 23-25, 2027, in New York City. The banner lists sponsors like 3DPRINT.COM, Additive Manufacturing Research, Stratasys, and CANTON, and includes a 'JOIN NOW AND SAVE' button.

The main content area is titled 'DAILY NEWS' and features an article titled '3D People Case Study Details Development of 3D Printed POV Camera Rig' by Sarah Saunders, dated May 10, 2026. The article text describes a wearable support system for filmographers. A 'Read in browser' link is provided. To the right of the article is a 'POLYMER' advertisement for EOS Polymer 3D Printing, featuring a 'LEARN MORE' button.

Below the article are two more advertisements: one for 'DOOSAN' gas turbine parts, highlighting 'UNMATCHED EFFICIENCY IN GAS TURBINE PARTS WITH EOS 3D PRINTING', and another for 'continuum Premium Metal Powders', stating they are 'Engineered from Reclaimed Materials' and including a 'Discover the Difference' button.

Forum Folder Create your own folder

Sticky Thread Featured atop of list within a folder of your choice

The screenshot displays the 3D Print Board website interface. At the top, the logo for 3DPRINTBOARD.COM is visible, along with navigation links for News, Events, Research, Jobs, Forum, Shop, Contact/Subm, and About. A search bar and buttons for LOGIN and REGISTER are also present. The main content area features a banner for the 10th Annual Additive Manufacturing Strategies event, scheduled for February 23-25, 2027, in New York City. Below the banner, a table lists various forum categories under the heading '3D PRINTING'. The table includes columns for the folder name, a brief description, the number of threads and posts, and the most recent post. The categories listed are: General 3D Printing Discussion, 3D Printing News, Interviews & Editorials Supplied by 3DPrint.com, 3D Printing Business Management, 3D Printers (Hardware), and 3D Printer Parts, Filament & Materials. To the right of the forum listings, there is a search bar for 3DPRINT.COM NEWS and a section for SPONSORS, which includes an advertisement for 'The Leading Source of Industry Analysis Market Forecasting and Data for Additive Manufacturing'.

EVENTS

AMS X NEW YORK 2027

Additive Manufacturing Strategies

February 23-25, 2027

- ✓ 3 Days, 12 Sessions, 1 Continuous Track
- ✓ 100+ Speakers
- ✓ Private Meeting Rooms (Sponsor Priority)
- ✓ Global 3D Printing Business Conference

Additive Manufacturing Strategies is a 100% in-person event in New York City. This industry touchstone conference brings together AM stakeholders from all over the world. AMS includes panels and keynotes on topics most critical in the fast-growing world of additive manufacturing. Bringing together the industry's leaders in a contained networking environment makes AMS the place for startups to access capital, for financial institutions and investors to sharpen their radars, and for the AM industry to focus on the business of AM.
